COP 21 Side-Event on

## **Multi-Level Climate Governance: An integrated analysis of National, Regional and Local Policies**

Wednesday, 09th December 2015 – h. 15:00-16:30

Paris-Le Bourget - Room Observer rm 08

This side event assesses the current framework of multi-level governance for climate change control, providing an integrated analysis of national, regional, and urban policies and commitments.

By comparing INDCs according to different metrics, it provides an overview of their future implementation.
